
ERRATA

On page 86 of Shannon, R. and R.W. Mendyk. 2009. Aquatic foraging behavior and freshwater mussel (*Vesunio* sp.) predation by *Varanus panoptes panoptes* in central-western Queensland. *Biawak* 3(3): 85-87., a large *V. p. panoptes* is erroneously estimated of measuring between 2- 2.25 m in total length. Accurate estimation of the individual's total length may have been affected by its activity within the water of the dam. Maximum lengths reported for *V. p. panoptes* (Christian, K. 2004. *Varanus panoptes*. Pp. 423-429. In Pianka, E.R. and D.King [eds.]. *Varanoid Lizards of the World*. Indiana University Press, Indianapolis.), suggest that the observed specimen was under 2 m in total length.

On page 74 of Volume 3 Number 3, a photograph depicting a juvenile *Varanus bengalensis nebulosus* in Central Catchment Nature Reserve in Singapore was erroneously credited to Shirly Ng. The correct photographic creditation is **Shirley Ng**.

In Stefani, M. 2008. Husbandry and reproduction of the peach-throated monitor *Varanus jobiensis* in captivity. *Biawak* 2(3): 124-130, photographs depicted in figures 7 and 8 are credited to **Mike Heinrich** <http://amazontreeboa.org>.

Varanus salvator macromaculatus. Captive male. Parque Reptilandia, Costa Rica.
Photograph by **Robert W Mendyk**.
